Attachments:

John,

Per the response given to your e-mail from 7/23/09 regarding the same question,

"Photographs are taken on every job for documentation, status reporting, training purposes, etc? Agostini is required to take photos on this project per the specifications for a variety of reasons. The aerial photographs you refer to are separate from this requirement and the photos taken to date have been donated to the project by a Norwood resident."

This is still the case.

Thanks,

Bryan Jarvis
Asst. Project Manager
