## Endangered Species Project: RUBRIC

Score: \_\_\_\_\_

	<b>10</b>	<b>8</b>	<b>6</b>	<b>4</b>	<b>0</b>
<b>species' name, both common and scientific</b>	both are included, spelled and capitalized properly, and correct	both included, error in spelling or capitalization	both included, error in spelling, capitalization and/ or name is incorrect	only one is included and/or there are errors in spelling or capitalization, or name is incorrect	neither the common or scientific name is included
<b>classification kingdom, phylum, class, order, family, genus, species</b>	all 6 are included, spelled and capitalized properly and correct	one error or omission in either classification or spelling / capitalization	2-3 errors or omission in either classification or spelling / capitalization	4-5 errors or omission in either classification or spelling / capitalization	classification not included
<b>areas or countries where species is found</b>	all areas or countries where species found are included and correct	most areas or countries where species is found are included and correct	one area or country where species is found is included and correct	areas or countries where species is found are listed, but incorrect	areas or countries where species are found are not included
<b>description of habitat</b>	habitat is described completely and correctly, but not plagiarized	habitat is briefly described in the student's own words and is correct	habitat is listed, but not described in the student's own words	habitat is incorrect	habitat not included or <b>plagiarized</b>
<b>type of eater and what it eats</b>	type of eater is included: carnivore, herbivore, omnivore and described completely and correctly	type of eater is included: carnivore, herbivore, omnivore and described briefly	only one is included and is correct	only one is included, but is incorrect	type of eater and what it eats are not included
<b>reasons why the species is endangered</b>	well stated (but not plagiarized) reasons include food web and ecosystem details	reasons are included with some brief details, but are the student's own words	reasons are included, but are somewhat incomplete or unclear	reasons are incomplete, confusing, or incorrect	reasons not included or <b>plagiarized</b>
<b>actions being taken to protect the species</b>	actions being taken include both food web and ecosystem details with information from two or more sources (not plagiarized)	actions being taken are included with some details from one source, in the student's own words	actions being taken are somewhat incomplete or unclear	actions being taken are incomplete, confusing, or incorrect	actions being taken are not included or <b>plagiarized</b>
<b>pictures of the organism</b>	two or more superior quality pictures or drawings are included	one or more superior quality pictures or drawings are included	one or more good quality pictures or drawing are included	one good quality picture or drawing is included	pictures or drawing not included
<b>map of habitat location</b>	excellent quality picture or drawing of correct world region is included	good quality picture or drawing of correct world region is included	fair quality picture or drawing of correct world region is included	poor quality picture or drawing of correct world region is included	picture or drawing not included
<b>references</b>	all references for research are cited clearly and accurately	most references for research are cited clearly and accurately	few references for research are cited clearly and accurately	references for research are not cited clearly and/or accurately	no references provided

**Extra points for creativity may be awarded for exceptional projects or presentations.**

**Projects not presented in class will lose credit.**
