Coakley Connects

What is it? Why do It?

SUMMER ENRICHMENT

Each year the Norwood Public Schools works to enhance summer offerings for students. This program will provide incoming 6th and 7th grade students with the opportunity to explore multiple subjects at the middle school. Our 16-day program will engage students with science activities, physical activity, math, technology, social studies and reading! Students will work with certified teachers in large and small cooperative groups. Students don't stop learning, and we are here to help!

STOP SUMMER SLIDE

Do you worry that your student will lose ground over the long summer break? Through a combination of hands-on activities combined with physical and cooperative engagement in a safe and fun school setting, students get in top shape for their transition in the fall.

Summer Fun for Mind and Body!

Class/Group	Group 1	Group 2	Group 3	Group 4	Group 5	Group 6

Connect Staff

All Connect teachers are experienced and certified teachers from across the Norwood Public Schools. Students will get the opportunity to work with teachers from across the district, with many being from the middle school. This allows for students to gain familiarity and comfort with staff before starting CMS in the fall!
