

School Supplies List

With such a wide variety of courses open to students, class supplies vary by course at Norwood High School.

On the first day of school, we recommend students show up with the following:

1. A fully charged Chromebook in its protective case. If you have not been issued a chromebook yet, students will receive them within the first two days of school.
2. At least one notebook for note-taking.
3. Pens and Pencils.
4. Any specific supplies that have been communicated to you by your teacher in advance.

Many of the materials needed are supplied within the classroom, but teachers will go over needed materials in the first classes of the year and provide students ample time to obtain them. If a student is in need of any additional supplies, please see their school counselor or assistant principal for assistance.
